RESOLUTION

concerning

LICENSURE AND ACCREDITATION

for a

BACHELOR OF SCIENCE

in

CONSTRUCTION MANAGEMENT

at

CENTRAL CONNECTICUT STATE UNIVERSITY

October 4, 2001

RESOLVED, That under the authority granted to the Board of Trustees for Connecticut State University System in Chapter 185b, Section 10a-87 and 10a-149 of the Connecticut General Statutes, the Chancellor of the Connecticut State University System is authorized to seek licensure and accreditation from the Connecticut Board of Governors for Higher Education for a Bachelor of Science degree program in Construction Management to be presented by Central Connecticut State University.

A Certified True Copy:

Lawrence D. McHugh, Chairman

ITEM

Licensure and Accreditation of a Bachelor of Science degree program in Construction Management at Central Connecticut State University

BACKGROUND

CCSU proposes to upgrade the current program specialization in Construction Management to a Bachelor of Science program in the School of Technology. The specialization has an average annual enrollment of approximately 90 students and has maintained this number for the past 10 years; 100% of Construction Management graduates are employed. This is the only Construction Management program in Connecticut. The BS in Construction Management was reviewed and approved by CCSU's Curriculum Committee and the Faculty Senate.

ANALYSIS

The curriculum for this program meets the stringent standards of the American Council for Construction Education, the recognized accreditation agency for programs in construction management. The goals and objectives of the program are consistent with the mission of CCSU and its School of Technology. Ten student learning outcomes, aligned with their measurable objectives, address issues of accountability and performance. A required certification examination will allow program faculty to report student success.

The number of faculty is sufficient to meet demands of current student enrollment. Funding for the program is included in the budget for the School of Technology. A Construction Management Advisory Board will provide guidance for the program

CHANCELLOR'S RECOMMENDATION

Central Connecticut State University may seek licensure and accreditation from the Connecticut Board of Governors for Higher Education for a Bachelor of Science program in Construction Management.
