SUBJECT Removal of Barriers to the Disabled - Hickerson Hall						

On April 3, 1981, the Board of Trustees authorized an expenditure of \$40,000 for the removal of barriers to the disabled in Hickerson Hall, to be financed out of the Central Office Auxiliary Services Account. Subsequently, however, due to a temporary shortage of funds in that account, the project was delayed until 1982. Cost inflation during this delay now requires that the project be augmented by \$4,000 to a new authorization of \$44,000. Your assistance in securing Board approval for this augmentation will be appreciated. In anticipation of the enrollment of additional disabled students for Fall Semester, 1982, it is highly desirable that Board authorization be secured at their March 5 meeting following which bidding documents can be prepared for construction work to commence in June.
